# Learning Objectives

By the end of this session, participants will be able to:

1. Provide a high-level overview of Open RN grant project
2. Discuss advocacy and education strategies
3. Describe the development and review processes used to create the OER textbooks
4. Explain how to access the Nursing Pharmacology textbook and associated H5P activities
5. Outline virtual simulation scenarios being created by the Open RN project

# \$2.5 million granted

The Open RN project is funded by a \$2.5 million grant from the Department of Education

# 25 virtual reality scenarios

25 OER virtual reality scenarios are being created. Over 100 OER simulation videos have been uploaded to the Open RN YouTube channel.

# \$1.5 million saved

Projected **ANNUAL** maximum cost savings for Nursing students across the state if all 16 WTCS colleges adapt the five OER textbooks as the required textbook for the course.

# 200+ reviewers

200+ peer reviewers nationwide.

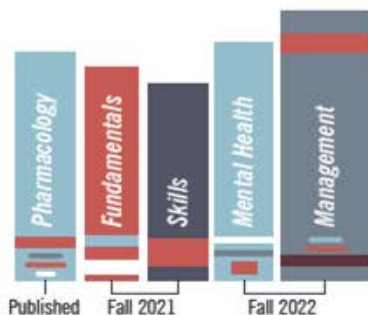

# 5700+ students impacted

projected annual impact in Wisconsin alone.

# 16 WTCS colleges involved

75+ contributors from academia and industry.

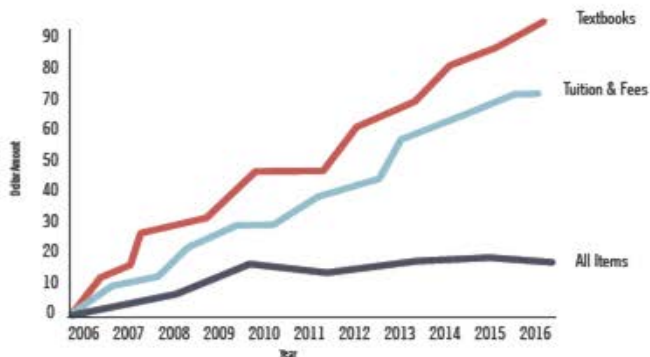

# 5 OER textbooks

Five OER Nursing Textbooks are being created.
